The collection charges under House, Mohatarfa & other taxes on average already nearly 9 per cent of the income and there are no special circumstances to justify an increase as in the case of the octroi Department

This would give an establishment charge of 3672 under Public Works, the expenditure amounting to 37000 Rs. This is not too high considering the fact that the Division establish 4th charges

As regards the hire of 11 spare carts and the entertainment of as many coolies at 7 Rs a month to expedite the casting away and deposit of rubbish, the utility of the proposal seems doubtful as it assumes that the time occupied ~~in removing the rubbish~~ in wending to the Rubbish Dep by a pair of bulls, yoked to a loaded cart and bringing the back to the original spot, is the same or nearly the same as that of filling the empty cart with stout sweepings. 76

Mypores dated 12th April

1.7.418-9

Sir

With reference to my letter No. 770 dated 31st ultimo, submitting the Budget Estimates of the Mypore City Municipality for 1893-94 I have the honor to submit the following recommendations for increase of pay to some of the deserving hands, some modifications in the scale of Establishment already sanctioned &c -

1. Collection Octroi - The Sub Committee recommended increases to the officials of the Sayer Octroi as noted in the margin

	No.	Present pay	Increase	Total
Darogha	1	50+10 ✓	10+5	75
Munshi	1	8 ✓	4	12
Hd Gumasta	1	10	5	15
Gumasta	1	8 ✓	2	10
Daffadar	1	5 ✓	1	6
Peons at 5 Rs.	10	50 ✓ 30	20	150
Do — 4 Rs.	40	160 ✓ 120		80
		301	47	348

The Sayer Darogha has worked hard and take much interest in his wor Since his appointment, t Octroi revenue has very much improved - The wor of the Octroi department in Mysore is undoubtedly

Excisable articles is fewer. The total collection justifies some increase to the subordinate officials the more especially as the scale of their pay was fixed when the pay of the Taluk Officials was low previous to the year 1862.

The Board approved of increase as follows, and decided that it was unnecessary to raise the pay of the peons as their work was light.

	Present pay.	Increased pay
1. Manager -	50 + 10	60 + 10
1 Munshi -	8	10 rising to 12
1 Head Gumasta -	10	15
1 Gumasta -	8	10
1 Daffadar -	5	6

3. Collection, House & Mohatarfa taxes - The City Amildar having ceased to supervise the Municipal Collection and other matters, it becomes necessary to revive appointment of a Collector and Assessor which Existed erly. Unless there be an officer of that description will be responsible to supervise the work of the eral Mohalla Mutsaddies in detail, the collection cannot be as efficient and satisfactory as it be. His pay has been proposed to be fixed at Rs and provided in the Budget. If the Government ould consider that it is too high it may be fixed at 50 as formerly.

The 2 peons sanctioned for the City Amildar ll have to be retained. One for the Collector the other for the Vice President. Out of the 3 peons w sanctioned for the Head Office, two are employed in Sending Office and in circulating papers among the ommissioner, and only one is available to the Vice - President as his orderly.

Although the sanctioned number of Peons provided to assist the 9 Mohalla Mutsaddies in

Collecting taxes is 7, Yet 2 additional Peons he

herto been made available, Out of su vide margin as it was found very difficulty to carry on the work The number of tax pay is disproportionately lo for each Mutsaddy, a 9 peons at least are required as until a y years ago 13 peons had been allotted to this branch.

It is therefore proposed that the modified sca now adopted, may be sanctioned, the difference of Rs 3 as now paid out of the contingent allowance which may reduced from Rs-200 to 164 Rs- per annum.

Sanction.

4. Public Works Department - Provision has been m for the appointment of a Lascar for the Municipal Eng recently appointed -

Yes.

Up to last year, there were 3 Overseers - but on Rs-25 a month was always attached to the office to attend to the accounts and correspondence of this Branch addition to the Cashier on 20 Rs-. But as it was considere objectionable to make a Sub Overseer do office work, proposals were made in last year's Budget abolishing the appointment, raising the pay of the Accountant or Cashier from 20 to 30 Rs, providing for a Calculator and Checker on Rs-20/-. The Government was pleased to accept the p to abolish the Sub Overseer's appointment - but vetoed the other

There is no doubt that one Accountant or Cashie on a pay of Rs-20 is insufficient for the Office work in this Branch, and it is very necessary to engage an Accountant trained in the Public Works Department to bring the accounts in this Department which are no in a satisfactory condition to broke arrears - and to in introduce a system of accounts similar to what p prevails in the D. P. W. I. the han be fixed at 5- Rs.

per mensem, the scale of a D.P.W. Accountant the last grade may always be secured.

To meet the increased cost in part, the increase of pay which was sanctioned last year to the 2nd Overseer which has not yet been given to him may be cancelled thus effecting a saving of Rs 15.

Conservancy - The Sub Committee had recommended increase to the hands in the Conservancy Department as specified below —

	Present strength - No.	Pay	Proposed strength No.	Pay	Net increase Rs
Sub Overseer for Kanne Powdan Koppal -	1	8	1	10	2
Sub Overseers for other Places at Rs 10/	"	"	3	30	30
	1	8	4	40	32
Sweepers at 6 Rs	5	30	72	432	208
Do — at 5 Rs	74	370	80	400	
Do — at 4 Rs	116	464	60	240	
	195	864	212	1072	208

There was a full discussion on this subject at the meeting of the Board. The Civil Surgeon and other members were strongly in favor of an addition to the present Establishment. Excepting the Fort and Channa Mohallas, which are fair, in the other five Mohallas drainage in the numerous streets and lanes is bad and the filth and rubbish too much for the present strength of sweepers.

The Petta or the principal portion of the Bangalore Municipality is of smaller area than Mysore and is more easily kept clean. Besides, streets in Mysore are broader and the drains not properly constructed and the work of cleaning them is therefore troublesome.

The Board have therefore approved of the employment of 12 additional sweepers at 6 Rs each and 20 additional sweepers at 5 Rs each, and provision has accordingly

accordingly been made in the [illegible]
submitted - When this is sanctioned, the strength
the sweepers Establishment will stand thus.

	No	Pay
Sweepers at 6 Rs -	17	102
Do — at 5 Rs.	94	470
Do — at 4 Rs.	116	464
	227	1036

or an increa

of Rs. 172 per month.

Provision has also been made in the Budget
for an increase of 70 Rs. per month at 7 Rupees per cart
for 10 carts in order to hire 10 spare carts and employ
10 Coolies - By this arrangement, one cart will b
filled with the sweepings and rubbish by the time the
other loaded cart is taken and brought back to the
rubbish depot, and will be ready for immediate
removal by the same pair - Thus with one pair of
bullocks, we should have as many trips as if th
had been 2 pairs with each a single cart.

6. Water maintenance Est. - Increases have been
recommended in para 18 of the Explanatory Memo
submitted with this office No. 754 dated 28th March 1
for the Inspector and 2 watches. They have not been
been included in the Budget Estimates for 1893-94,
want of sanction -

It is requested that the proposals may be
approved -

7. Market Estt. - The Market Daroga is n
engaged in the Slaughter house which is at a
distance from Markets and for want of a li
man, the Market work is suffering - to improve
matters the following alterations & scale, which with
no Extra Cost, may be sanctioned, since the Daro

SIR,

I have the honor to submit for information copy of letter No. 19 dated 14th instant, addressed by me to the Chief Engineer of Mysore, requesting to lend to the Mysore Municipality the services of B. Alasingrachar, accountant in the office of the Executive Engineer Special Improvement Division at Mysore.

As it is considered very necessary to secure the services of an efficient and experienced accountant like B. Alasingrachar who is a resident of Mysore and who has worked in the Special Improvements Division, I have selected him to fill the appointment

of Municipal Manager with the hope that he will be capable of bringing to a better condition the P.W. accounts of the Municipality. I beg that the Chief Engineer may be authorized to lend the services of the accountant at an early date.

Letter from the President of the Ellyson City Municipal Board dated 12th April 1892 No 791. submitting proposal for the provision of establishments maintained by the Municipality

Order thereon

In the letter above read, the President of the Ellyson Municipal Board proposes the provision of the Municipal establishments

2 The increases to deserving officials of the Odeon establishment recommended by the Board are sanctioned subject to the Managers pay being fixed at Rs 6

Munshees at Rs 10 a

The cost of establishment under ~~Octroi~~ III Collection (a) Octroi would thus amount to Rs 5940 per annum, while the normal receipts amount to over 60000 Rs This would give a percentage of less than 10 per cent, as establishment cost, which Government consider very fair considering the nature of the Octroi work.

3. With a whole time Vice President of the experience and standing of Mr Coobroo Avenoy Moodeliar Government do not consider it necessary to appoint a separate assessor. The collection Charges under House Allahatiya and other taxes average already

nearly 9 per cent of the
income and there are no
special circumstances to
justify an increase as
in the case of the Water
Department. The President
should utilize the service
of Municipal Commissioners
as much as possible
in the assessing of houses
He may also ~~also~~ utilize
the services of the Municip.
Engineers as far as may
be consistent with the
due discharge of the
latter's legitimate duties,

to supervise the collections
Of the 2 Peons attached to
the Pub. Amusement

be given to the Vice President and the other to the Municipal Engineer in case the latter's services are made available in the manner above suggested, ~~which the President is requested to grant~~

4. The proposals as regards two additional Peons to the Collection Mutsuddees and the modified scale of pay to Mutsaddees and Peons are approved. This involves an additional expenditure of Rs 36 a year, which will be met as suggested by the President by reducing the provision under "Contingent allowance" from Rs 200 to Rs 164 per annum.

5. The provisions for a Lascar on Rs 6. to the Municipal Engineer and an accountant

Recd 4/6/92

accountant on Rs 35 for the P. W Branch of the Municipal office are sanctioned. This would give an establishment charge of Rs 3672 per annum under Public works Supervision or 9·4 per cent of the expenditure on works amounting to Rs 3700 This is not too high — considering the usual — establishment charges in the D. P. W.

6 The proposal to entertain 32 additional — Sweepers costing Rs 172 per mensem is sanctioned. As regards the hire of - 10 spare carts and the entertainment of as many coolies at 7 Rs a month to expedite

the casting away and deposit of rubbish, the utility of the proposal seems doubtful, as it assumes that the time occupied in walking to the rubbish Depôt a pair of bullocks yoked to a loaded cart and bringing them back to the original spot, is the same or nearly the same as that of filling the empty cart with street sweepings The President may however try the experiment, with a couple of carts and report the result of the trial three months hence. ~~He~~ Govt observe that in Bangalore with an expenditure of 17000 Rs on Conservancy, a revenue of 1000 Rs is derived from the sale of manure which in itself is too little considering that with the additional establishment sanctioned the cost above sanctioned the Conservancy in mysore will come to nearly 24000 Rs, & it is a matter of surprise to Govt that the President should have entered only 100 Rs under 'Sale of manure' in the budget for 1893-94 The President should take immediate steps to have all municipal sweepings sold by auction and report the results of the same at the end of three years from this date.

~~Govt trust that the President will be able to report by the end of the~~

Comm

Sir,

In continuation of my letter No. 553 dated 6th instant, I have the honor to submit the report of the Budget Sub Committee and Extracts from the Resolution of the City Municipal Board recommending certain increases in the Expenditure.

2. It will be seen that the extra Expenditure for the permanent Establishment will be Rupees 1008, and, under other sundry heads, Rupees 2909 per annum or in all Rupees 3917.

3. The slight increases to the pay of certain officials as also for the Ameen have been recommended not only on account of their hard and increased work but also because they are men of long service and have had no promotion

for a long time. The Budget Sub Committee were in favor of similar increases even last year.

4. The Establishment of Peons for the office and Vice President consists of only 4 men at 5 Rs. each. This number is too small and at times great difficulty is experienced in getting papers circulated or sent out in time for want of peons. Two peons were given to the Vice President from the City Magistrate's Court, but on the appointment of a City Magistrate two months ago, they were withdrawn from the former. Two more peons have been recommended, and considering the number of peons now allowed to other executive officers, the recommendation may be sanctioned.

5. The Sub Committee and the Board have proposed to revise the Mohatarfa Collection Establishment as per proposed Statement enclosed. The peons sanctioned under the present scale only accompany the Mutsaddies and are of no use in facilitating Collections. It is considered that Assistant Mutsaddies would be able to make independent collections and also help the Mutsaddies in making up their accounts. Peons are required only when coercive processes are resorted to, and two Shekdars with a Peon each have now been provided for the purpose. No extra Expenditure is however involved in these proposals.

6. There are two Markets at Devaraj and Mandi Mohallas, a Beef Butcher's market in Lushkar Mohalla, besides a Slaughter house near Mandi Mohalla. All these are under the Supervision of the Market Establishment consisting

Consisting of one Darogha, one Mutsaddi and one Peon, and the work is not properly done, the rent collections are slack and the sanitary and other arrangements in the Slaughter house and Meat and Beef markets are also not properly supervised. It is therefore now proposed to allot the present Establishment costing Rupees 20 to the Devaraj and Mandi Markets, and appoint an Extra Darogha with a peon to be in charge of the Slaughter house and Beef Market. The income from the Markets and Slaughter house is about 5,700 Rupees a year, and if the Extra hands be sanctioned the percentage of cost will be only 7·5

7. The Board have recommended an increase of a rupee each to the pay of the Sewage peon and 6 Sewage sweepers employed in the Fort. one intelligence is required on the part of the Peon in supervising the cleaning and flushing of the drains, and the work of the sweepers also is one requiring great care, and the increases are well deserved.

8. Owing to there being no Municipal servants at present in charge of the burial and cremation grounds, the burials and cremations are carried on in a careless manner and the places are not properly conserved and kept clean A Koliyar servant on Rupees 3 a month has been proposed to be entertained for the purpose.

9. In connection with the D.P.W. Establishment of the Municipality, the Vice President has reported as follows.

" The services of the 2d Overseer on Rs 35/ were dispe

dispensed with as unnecessary on the appointment of the Municipal Engineer 6 months ago but the Municipal Engineer is obliged to keep the work of the one half of the City for himself to work details, and this takes away much of his time to the prejudice of his most important work of general supervision. He cannot, with this state of things, study as to the probable requirements to improve the condition of the City from time to time"

Again, the Accountant in the Public Works branch has very much to do, and the de-mand for plans, sketches for new houses, and frontages, to be built in Chamarajpur and the Western Extension, is great. To meet these difficulties an Overseer on Rupees 30 + 10 is re-commended by the Board and as he shall have to do survey and plan drawing work in addition to his Executive duties. I must support their re-commendation. The percentage of cost of Establish-ment to the proposed total Expenditure will be only 10·7".

" Although the sanctioned pay for the Accountant is Rupees 35, the present Accountant is being given only Rupees 25 per month. He is an old and experienced official and it is proposed to give him an increase of Rupees 5. The remaining 5 Rs may be set against the 40 Rs to be given to the 2nd Overseer."

10. While I agree with many of the remarks made by the Vice President, I am of opinion that the arrangements proposed are not very suitable. The bulk of the work carried out in the Public

Works

Works branch of the Municipality is of an ordinary description consisting of road and drain making, of their repairs and was formerly carried out by 2 overseers. Work of a superior description will be small and could well be shared between the Executive Engineer and the Overseer of the Municipality. As however improvements and extensions are carried on in the city in various quarters, a draughtsman with experience of surveying and estimating will be of great use for some years in the office. I would, therefore, recommend a man on Rupees 25 + 10 for this purpose. He must be generally employed in the office except when required outside for surveying or for other special work when he can be allowed Coolies for employment as temporary Lascars. The Accountant on Rupees 35 was sanctioned when the Manager of the Municipality was a revenue hand with no knowledge of D.P.W. accounts. Now that a professional Accountant has been secured on a pay Rupees 40 rising to 50, I see no reason for an Accountant on a high pay. It would be sufficient to have a writer and Accountant on Rupees 25 for employment under the Municipal Engineer and the proposals may, accordingly, be modified.

11. Increases to other items which are of annually recurring nature call for no special remarks.

12. Two separate proposition statements are enclosed giving full explanation for the new

new and increased provisions made in the Budget.

I have the honor to be
Sir,
Your most obedient servant.

Proceedings of the Sub Committee on the Budget of the Mysore City Municipality for the year 1894-95 held at the Town Hall on Wednesday the 24th of January 1894.

Present

Mr. A. Ekambaraiyangar Vice President

Mr. Annie Ammiah Pandit

Mr. M. Venkatta Krishniah.

Mr. M. Lakshmana Narasimmiyar

Mr. W. P. Narayanaswami Mudaliar

Mr. Syed Ghulam Dastagir Sahib

Mr. Fatha Khan Sahib.

1 The items of receipts under several heads proposed for the year 1894-95 are approved

2. The following modifications and recommendations are made in respect to the items of Expenditure.

Head office. (a) A sum of Rupees 300 be entered for the clothing also for Badge and belts, for the office, collection and Market Establishments. Without such dress and belts, these menial servants cannot be readily recognized.

Octroi. (b) Although the Sayer Daroga and some of his office hands got some increase last year (Government Proceedings No 1999-2000 dated 3rd August 1893)

L.F. 418-92

now the Chief detective officer (Ameen Thimmah) Bro did not get any. He was a Police Serjeant on 12 Rupees when he was taken in the Sayer Department in July 1884, and ever since his appointment, the income from Octroi showed improvement year by year, as by his exertions, smuggling of Excisable articles has received a check. His present salary may reasonably be increased from 15 to 18 Rupees per month.

House Tax and other Mohatarfa } (c) The Collection Establishment requires remodelling for the better management of the work.

(d) There are 9 Peons on 5 Rupees each who are, as a rule, illiterate and who simply accompany the Mutsaddies. They cannot be entrusted with Collection work independent of the Mutsaddies. The number of tax payers is so large and the collection of taxes is so difficult even from the well to do people, one Mutsaddy for each Mohulla is not at all sufficient to show better collection. Hence the non collection of large arrears.

Again the duty of discovering new shops, Carts, rooms and other articles, periodically, for Taxation is tacked on to the Mutsaddies in addition to their collection work. The Consequence of this is that these taxable articles are not properly ascertained and taxed

There is only one Shikdar on 15 Rupees

supervise the work of the collection and to distrain properly throughout the city is not possible for him to give satisfactory the performance of such a heavy work.

The Committee therefore make the following recommendations to improve matters.

The Establishment of 9 Peons should be abolished which will give a saving of 45 Rupees a month. In its stead, 7 Assistant Mutsaddies 7 Rupees or 49 Rupees per month be employed; the work of collection of Each Mohalla has to be divided among the Mutsaddies and Assistant Mutsaddies. The designation of the Mutsaddy on 15 Rs be changed into Shaikdar, thereby giving 2 Shaikdars to be employed one on the Northern and the other on the Southern parts of the City.

The Establishment will then stand thus:-

Present strength.		Proposed strength	
1 Shaikdar ...	15	2 Shaikdars at 15	30
1 Mutsaddy ..	15	1 Mutsaddy .	15
1 Do ...	12	5 Do .. at 10	50
5 Do . at 10 ..	50	2 Do .. at 8	16
2 Do . at 8 ..	16	7 Do at 7	49
9 Peons . at 5 .	45		
	153		157

or an increase of only 4 Rupees a month, or 48 Rupees a year.

Market Establishment. 3/d

There is only one Darogha on Rupees 8, one Mutsaddy on 7 Rs and one Peon on 5 Rupees for the Devaraj and Mundy Markets. The Darogha

has also to do duty in the Slaughter's house and Beef Butcher's market - All these places situate at a long distance from Each ther - Formerly, the collection work suffered even with 2 Darogas

The work in the Dawanj Market has been considerably increased in proportion to the increased income Ever since the improvement made to the old Market.

At present, the Market collection and supervision work is allowed to suffer for want of efficient hands - 1 Additional Daroga on 10 Rupees, & one additional Peon on 5 Rupees are absolutely required for better working in the Market.

The Establishment will then stand as follows:-

Present strength -		Proposed strength
1. Daroga ..	8	1. Daroga - 10
		1. Do. 8
1. Mutsuddy.	7	1 Mutsuddy 7
1. Peon ...	5	2 Peons at 5- 10
	20.	35

or 15 Rupees more than the present Expenditure per month.

Conservancy. (e) The work of the 11 Conservancy peons and 6 Sewage Sweepers or Cleaners is so troublesome of such an unhealthy and distasteful nature that they deserve better pay than 6 and 5 Rupees respectively. The Sewage sweepers diminish either day and some of them never up work. These classes of menial servants may, with advantage, be given an increase of one rupee each. This will involve an Extra expenditure of 17 Rupees per month.

(f) Arrangements shall have to be made for providing

providing street Boards and for painting revised numbers on the houses. A sum of Rupees 400 may be provided for to meet the charge.

Births and Deaths. (g) During the year 1892 the number of births and deaths was reported to be 78 and 1582 respectively. The registration of births cannot be accurate. Each of 3 Registrars is made to sit in one Police Station in the morning and in another Police Station in the afternoon to record the information on these points. The beat Constables ordinarily give the required information. People do not go to them to give intimation though they are required by the Municipal Regulation to do so and though they were repeatedly warned by beat of tom tom to give intimation to the Registrars.

The procedure followed in the Poona Municipality seems to be good. It gives 6 and 3 pies to the sweepers who are expected to be daily at every street and lane for each information of birth or death respectively after testing their information. In order to introduce the same system in our Municipality we have provided 100 Rupees under this "head" for Expenditure during 1894-95.

Burial grounds (h) The Chief Hindu burial and cremation grounds have no watchmen. For the proper Conservancy and regulation of these grounds is out of

the way, place, a Koliyar may be Em-
-ployed on 3 Rupees a month.

Lighting.- (i) The number of lamps for the whole city including the Subar-
-ban villages is 550. Complaints are constantly made for want of lights in by lanes and cross-
lanes, which are short, abrupt and overcrowded. The usual rule of distance between lamp posts cannot, with advantage, be followed in respect to such lanes and places. Chamaraj road and some wide and important roads, besides the suburban villages, have been added during the year. Houses are also springing up in Chama-
rajpur. Provision has been made to give
50 more lamps to the City.

Public Works Department. (f) The Municipal Engineer found it very difficult to get on with the Public Works with only one Overseer under him. He is consequently keeping more than one half of it for himself to the prejudice of his other important and supervision work. He cannot under the circumstances study the real wants and requirements of the City. Besides there is nobody in the office to prepare sketches and plans, the demand for which especially in the case of construction of new houses, is great. It is true that the Board thought that the appoint-
ment of an Engineer rendered the retention of the 2nd Overseer on 35 Rupees unnecessary, but experience shows that the Public Works of the city Municipality of the present time cannot be satisfactorily attended to by one Overseer.

Provision-

Provision should therefore be made for an Overseer on Rupees 30 plus Rupees 10 horse allowance

Pound - (k) The income of the Pound in Krish-
-naraj Mohalla amounts to Ru-
-pees 600/ per annum and the
Mutsaddy besides his own legitimate work looks after the Conservancy of the Bandy Stand close by, the income of which by contract is Rupees 250 - His pay of Rupees 6 may be raised by one rupee per month

Town Hall (l) The affairs of the Town Hall require a literary man not only to be in charge of the furniture, articles ban-
-ners &c but also to keep accounts. Venkata-
-ramania draws at 6 Rupees a month as a peon. His designation may be changed into a Mut-
-saddy and his pay fixed at 8 Rupees a month.

SIR.

In continuation of letter No. 478 dated 13th April 1895, submitting the Budget Estimate of the Mysore City Municipality for the year 1895-96, I have the honour to submit herewith a copy of the report of the Budget Sub-Committee and extracts from the resolution of the Municipal Board, recommending certain additional items of expenditure.

2. It will be seen that the increase is mainly owing to the increment proposed to certain servants of the Municipality involving an extra expenditure of Rs. 528 per annum. The details of the proposed increase are as follow.

(a) In the sayer office, a few deserving officials were given slight promotions last year. This year a munshi and 3 monégars are recommended for an increase of Rs. 2 to the former and rupee one to each of the latter in consideration of their long service and hard work.

(b) Some changes are proposed in the grades of conservancy overseers, but no extra charge is incurred thereby. This is only a redistribution of hands according to pay.

(c) Owing to the extension of the City, the present number of peons is considered inadequate. Therefore the entertainment of some extra peons is recommended by the Sub-Committee and this is said to be very necessary by the Vice President.

(d) For the Town Hall a chenguly and a sweeper on Rs. 3 each are employed at present. As their work is increasing every day owing to dramatic performances being

given more frequently than before which necessitate greater trouble and care in keeping the Hall clean, a slight increase of one rupee to each is recommended.

(c) As the work of fixing of water supply fountains have of late been extended to Chamarajapura, Kanné Gowdan Koppa and the Weavers' lines, it is not possible for the water Inspector to travel all over the City without a pony, and therefore an allowance of Rs. 10/- per month is recommended for him to maintain a pony.

3. A statement showing the proposed increases is submitted.

Receipts

The items of Estimated receipts under all the heads proposed for the year 1895-96. and the remarks made against some of the items in which there are differences

are approved.

Expenditure — the amounts of in the last year and the remarks for the are also approved but regard to extra expen the following are made.

Abkari Establishment. — On the report of Daroga stating that in previous year 11 mush abkarees and 10 peon were given a promotion one rupee each and the remaining 6 monegars peons and one sweeper be given an increase of rupee each this year. also 2 may be given to his munshi it is proposed to give promotions to only 3 monegars this year at

rupee each.

The old scale of Daroo Office Munshee was Rs 12 and the present incumbent was entertained on Rs 10- a month on 1st July 1893. As he worked satisfactorily and had no promotion since then the proposed increase of Rs 2/- may be given

Total for the year is Rs 60-

Conservancy Establishment

It is proposed by Mr. M Venkata Krishniah that the establishment be modified according to the requirements as detailed below and slight increases given to deserving hands, as an encouragement. The other members have agreed to it.

At present there are only 2 grades of conservancy overseers the 1st class 3 overseers drawing Rs 20-- each and the remaining

4 drawing only Rs 15/- each per month.

Instead of this it is proposed to make four grades and distribute the sum sanction as shown below thereby incurring no additional expense.

The grades are, —

I class	1 overseer on Rs	22/-	
II	00 1	00	20/-
III	00 1	00	18-
IV	00 4	00 @15	60

There are 7 mohallas of which the marginally noted one have not been provided with 2 peons to help the overseer. It is necessary to give one extra peon to each mohalla thus dividing each into two divisions under two peons and making the overseer responsible for the whole - like in the others mohallas, as these have since been

1 Chamanaj mohalla
2 Krishnaraj "
3. Nazarbad "

been extended.

In addition to these another peon is required for looking after the main drain which runs through mandys Lashker and part of nagarba mohallas and empties into galapun on Rs 4 per month, by this arrangement a month additional expense as shewn below will involve on the municipality

4 Extra peons on Rs 5. 20 -

1 Peon to look after the main drain and man holes all through the drains. 7 -

Total for the year will be 27

12 x 27 = Rs 324.

The application of Appalcha municipal S. W. overseer for promotion was read and forwarded to the President to know whether any such promise as stated in the application was made when he was entertained as

as municipal overseer.

It was remarked that application of Deva pound keeper for promotion and the recommendation of that Mohalla Commissioner Mr A Ramanah for the same may lie over till the Government sanction the collection of a fee of an anna per head of cattle brought for sale at the weekly market held below Jeevanrayan Valley in Mysore.

Ordered accordingly

On the representation of the sweeper and scavenger of the Town Hall that their work has of late been increased owing to constant performances of dramas in the Hall and that their present pay of Rs 3/- is insufficient and that a promotion of one rupee each may be given to them, it is considered that the prayer is reasonable and

that the promotion sought
for is recommended.

Very respectfully,

Your obedient
Servt.

Sir,

The Sanitary Inspector of the mysore city municipality applied for an increase to his present pay of 50 Rs. The matter was laid before the board, but it considered that his present pay was sufficient. It however opined that the horse allowance of Rs 10 was inadequate and that it might be raised to Rs 15 a month. A copy of the resolution is herewith submitted. Sanction is solicited to the increased rate of horse allowance. While on this subject I beg to state that the Sanitary Inspector here, viz Govindarajaloo naidoo, is a medical practitioner of considerable experience and that it is highly advantageous to secure his services to the municipality by giving him a reasonable

reasonable increment of at least 20 Rs
to his pay.

Sir,

While considering and passing the budget for the current year (1896-97) the board recommended some increase to some of its servants and also recommended some extra establishment as detailed in the enclosed statement. It will be seen from it that the increments proposed amount to 504 Rs per annum and the cost of the additional establishment to 780 Rs. There is also an extra provision of 67 Rs made for the municipal quota of the bedding and clothing &c charges of Her Highness the Maharanis lying in Hospital.

The Senior Surgeon having stated that

that an increased allowance was necessary to meet the present wants. Copies of the resolutions of the board are enclosed. The total expenditure over the sanctioned budget will be Rs 135-1 per annum. This can, as usual, be provided for in the supplemental budget if the sanction of Government is accorded to the proposals.
